These results are based on a survey undertaken in October 2012 and take into account the views of 120 children.

These results show the impact of our bullying and safety work in school. These include visits from PC Minka and Randini, as well as our work through Circle time and Golden Behaviour. It is good to see that 92% of children think that they are well behaved in school.

We are pleased that the majority of children know how to improve their learning and that their teacher's help them to learn.

We will continue our efforts to keep your children learning, in a safe and happy environment.
